

EDUCATION SUPPORT FOR JEHOVAH RAPHA TONGOLO STAFF

As we get closer to the completion of the new hospital, our team has already grown to 34 staff members, of which 27 are permanent. This total has risen gradually over the years, since our humble beginnings of just 8 staff members when we started 4 years ago. A small team, but lead by and dedicated to God and the Lord Jesus Christ! Many of us joined this ministry with basic low-level medical training, but the new hospital will require our staff to have a greater knowledge and skill set in order to maintain a high level of care we pride ourselves on. We are extremely grateful for the superb attitude and commitment of so many of our staff. To improve the quality of healthcare and service to our communities, the following 3 staff members stand out for further education. They are some of our most warm-hearted, extremely motivated and above all, selfless team members. They will benefit from further training that would enable them to handle larger responsibilities in the new hospital. Their studies will be part-time, so they will continue supervising and mentoring newer members during their time spent at JR II clinic. Financial support for them is desperately needed and most welcome! We hope that you will find it in your heart to support us in this respect.

VIOLET MUTONYI
